

y of 50 states covering a vast swath of North America. Hawaii extending the nation's presence into the Pacific Ocean. New York, a global finance and culture center, and capital Washington D.C. Chicago is known for influential architecture and on the West Coast Los Angeles is famed for filmmaking.

Packing List

Destination

gaming and entertainment mecca; New Orleans is famous for its jazz; American Revolution sites; San Francisco is home to the Golden Gate Bridge; Orlando hosts Walt Disney World. California's coastline is lined with beaches. The mountains are packed with ski resorts. Yellowstone's geysers and the vast Grand Canyon are national park highlights. Food-wise, New York has iconic hamburgers, New York pizza, Texas barbecue, and the South has cheesesteaks.

The United States varies due to its size and geographic location. The West Coast has mountains and desert. The central US is semi-arid. The far southwestern US has a desert climate. The East Coast is humid. The far east coast through New York is subtropical in the Great Lakes. Southern Florida is tropical. Hawaii and the US Virgin Islands. Higher-elevation areas of the Rocky Mountains, Sierra Nevada, and Cascade Range are alpine. The West Coast areas in coastal California and Washington are oceanic climate. The state of Alaska, on the northwestern corner of the North American continent, is largely subarctic climate, but with a subpolar oceanic climate (Alaska Panhandle), southwestern peninsula and Aleutian Islands.

Check the weather for the season. Summer time can be very warm at some locations, and vice versa. Visit www.weather.com for the most updated weather.

Most restaurants accept cash and cards. A meal will range between \$10-50 depending on the location. Please do carry spare cash with you.

Electronics

Phone and camera are a must. It is always good to carry an extra external charger.

Telecommunication

Verizon, ATT, T-Mobile are the most common carriers in the US. If you are visiting for a short period of time, we recommend getting a pre-paid SIM card at any carriers mentioned above.

Good option for non-emergency sickness but still can get quite expensive if you don't have an insurance co-insurance. Call 911 or go directly to hospital's emergency room.

ing

the proper encompasses 42nd to 47th Streets, from Broad
er to the area from around 40th to 53th Streets, bet

on lights and giant digital billboards. Times Square is big
cians. Times Square is big and busy, filled with
s the TKTS discount booth and the TKTS discount booth. Walk
steps—you may know the steps from the steps of a sweeping
uding One Times Square, the tallest building in the area on New Year's Eve.
I love the pedestrian-friendly atmosphere and the many chairs.

a Station, also known as New York Penn Station or Penn Station, is a major train station in New York City. Serving more than 600,000 commuter rail and subway passengers daily, it is the busiest passenger transportation facility in the Western Hemisphere. Located in the town area of Manhattan, close to Herald Square, the Empire State Building, and Macy's department store. Entirely underground, it sits beneath Madison Square Garden, between Seventh Avenue and Eighth Avenue and between 31st and 34th Streets. The station has tracks fed by seven tunnels (the two Hudson River Tunnels, the Erie Railroad Tunnel, and the single Empire Connection tunnel). It is at the center of the Northeast Corridor, a rail line that connects New York City with Boston, Philadelphia, Washington, D.C., and Baltimore. Intercity trains are operated by Amtrak, which owns the station. Commuter rail is served by the Long Island Rail Road (LIRR) and New Jersey Transit. The station is also connected to the New York City Subway, and buses. The station is also connected to PATH trains.

Pennsylvania Station was built from 1903 to 1910. It features a grand granite station house and a large glass and steel structure (the original Pennsylvania Station). After a devastating fire in 1975, the station was completely destroyed and reconstructed from 1975 to 1983. Future plans for the station include the Gateway Program, which aims to transform the station into a modern transit hub. The station is also home to the New York City Office, a building designed by architect Richard Rogers. The station is a major landmark in New York City.
